What is a Collaborative Learning???

Collaborative learning is based on the view that knowledge is a social construct.

There are 4 principles:

- The learner or student is the primary focus of instruction.
- Interaction and "doing" are of primary importance.
- Working in groups is an important mode of learning.
- Structured approaches to developing solutions to real-world problems should be incorporated into learning.

The Impact of Collaborative Learning

- ✓ Development of higher-level thinking, oral communication, self-management, and leadership skills.
- ✓ Promotion of student-faculty interaction.
- ✓ Increase in student retention, self-esteem, and responsibility.
- ✓ Exposure to and an increase in understanding of diverse perspectives.
- ✓ Preparation for real life social and employment situations.
